VOLUNTEERING

Engineering Mentor

Engineers Without Borders USA

01/2024 - 01/2025

Mentored high school students for a community project on sustainable energy.

- Guided a team of 12 students in project planning and execution stages.
- Conducted workshops on sustainable energy solutions for future engineers.

SUMMARY

Passionate about engineering challenges and sustainable solutions, eager to contribute to innovative projects in renewable energy and smart technology. Skilled in CAD, data analysis, and technical communication, with a dedication to collaborating on impactful engineering solutions. Aspires to develop a career in engineering consultancy focusing on sustainable practices and cutting-edge technologies.

TRAINING / COURSES

Professional CAD Drafting Certification

Certified by Autodesk, obtained in 2024.

Energy Systems Optimization

Offered by Coursera, completed in 2024.

Introduction to Renewable Energy

Certified by edX, issued in 2023.

INTERESTS

Renewable Energy Innovations

Exploring advancements and contributions in clean energy technology and solutions for a sustainable future.

3D Modeling and Design

Passionate about creating detailed and functional models for engineering projects using cutting-edge software.

Community Engagement

Involvement in projects that raise awareness and education about sustainable practices within local communities.

EXPERIENCE

Engineering Intern

GreenTech Designs

01/2025 - 01/2026

Los Angeles, CA

- Assisted project teams in designing advanced renewable energy systems, contributing to designs that improved efficiency by 15%.
- Conducted comprehensive data analysis using MATLAB, optimizing engineering processes and increasing project success rates by 20%.
- Drafted detailed technical reports and created presentations for stakeholders, effectively communicating project insights and outcomes.
- Actively participated in team meetings, suggesting innovative ideas that led to the development of two new project improvement initiatives.
- Developed precise CAD models supporting project demonstrations, enhancing team presentations during client review sessions.
- Coordinated with project managers to achieve 100% on-time delivery of key project milestones, supporting effective project management.

SKILLS

AutoCAD

MATLAB

SolidWorks

MS Office Suite

Data Analysis

Project Management Tools

EDUCATION

Bachelor's Degree in Mechanical Engineering

University of California, Los Angeles (UCLA)

01/2021 - 01/2025

Los Angeles, CA

STRENGTHS

- ★

Analytical Data Analysis

Applied MATLAB to rigorously analyze data sets, enhancing efficiency and outcomes in engineering projects.
