Education

SRM INSTITUTE OF SCIENCE AND TECHNOLOGY

2024 - 2028

B.Tech in Computer Science

Kattankulathur, Chennai, Tamil Nadu, India

Projects & Experience

Samvidhan Setu – AI-Powered Virtual Courtrooms | *React, Node.js, MongoDB, JWT Auth, Jitsi*

2025

- Developed an AI-powered platform to simplify constitutional laws, citizens' rights, and legal procedures using NLP.
- Implemented multilingual, context-aware legal query handling to map user inputs to relevant articles and legal cases.
- Designed secure, role-based access for citizens, law students, lawyers, and administrators with persistent records.
- Integrated a virtual courtroom module enabling online hearings, mock trials, and legal collaboration with real-time.
- Project recognized as **Best Freshers Team** at **OSSome Hacks 2.0**

Body Language Detector | *Python, OpenCV, MediaPipe, and TensorFlow/PyTorch*

2025

- Created an AI-based body language analysis system especially for interviews, mock interviews, and virtual meetings.
- Used computer vision to analyze facial expressions, eye contact, posture, and gestures during video calls.
- Provided real-time feedback and post-session analytics (confidence, attentiveness, nervousness, etc.)
- Project recognized as **Best Project of HackPick 2025**.

Online-Organ-Donation-Management-System | *Java, JavaScript, SpringBoot, H2*

2025

- A centralized web-based system to manage organ donor and recipient registration with verified medical details.
- role-based dashboards for hospitals, administrators, and users to handle requests, approvals, and workflows securely.
- Designed a priority-based organ matching mechanism considering medical urgency, and availability to reduce delays.

VID2NOTES | *JavaScript, Python, Docker, FFmpeg, LLaMA 3.3, Whisper* **2026**

- Developed a web-based application to convert educational videos and YouTube links into structured notes, summaries, and key learning points using AI.
- Integrated AI-based summarization, key-point extraction, and quiz generation to enhance learning and revision efficiency.

Technical Skills

Programming Languages: Python, Java, C++, HTML/CSS, JavaScript

Computer Vision: OpenCV, MediaPipe

Databases and Systems: MongoDB, Supabase, H2 Database, Docker

Web & Backend Technologies: React.js, Spring Boot, Node.js

Tools & Platforms : Git, Linux, VS Code, Jupyter Notebook

Leadership / Extracurricular

Team PROTON

2025

Team Lead

SRM UNIVERSITY KTR

- Secured **Best Project Award** at **HACKPICK 2025** (Altruisty Innovation Pvt. Ltd. × SRM) and awarded with an internship offer at Altruisty Innovation Pvt. Ltd.

Smart India Hackathon

2025

Team Lead India

- Worked on a Government problem statement involving applied software and data-driven solutions.

GeeksforGeeks (GFG SRMIST)

2026

Coordinator SRM UNIVERSITY KTR

- Managed event planning, team coordination, and technical outreach for the student developer community.

Futurix (Official Association Of Ctech Department)

2026

Tech Member

SRM UNIVERSITY KTR

- Contributed to building the official club website and technical automation tools for idea submissions.
