San Francisco, California

SUMMARY

Aspiring engineering professional with hands-on experience in project management and CAD software. Strong analytical and communication skills, eager to contribute to cutting-edge renewable energy projects. Aims to leverage technical skills and passion for sustainable innovation to make significant contributions in the engineering field.

EXPERIENCE

Engineering Intern01/2025 - 01/2026

GreenTech SolutionsSan Francisco, CA

- Collaborated with a team of engineers to design and test three prototype devices resulting in an 18% increase in efficiency.
- Assisted in preparing comprehensive engineering reports and delivered a presentation to stakeholders, improving communication and project clarity.
- Coordinated cross-departmental meetings, ensuring seamless communication, which reduced project delays by 10% in a six-month period.
- Utilized AutoCAD to model components for renewable energy projects, enhancing design accuracy by 15%.
- Developed budget estimates and resource plans for two medium-sized projects, supporting senior engineers in strategic planning.
- Conducted thorough market research on technological trends, aiding the team in strategic decision-making processes for new products.

Team Leader01/2024 - 01/2025

University Solar Car ProjectSan Francisco, CA

- Led a team of six students to design and construct a solar-powered vehicle, which achieved a 200-mile range in trials.
- Organized weekly team meetings to streamline tasks and deadlines, which significantly improved project workflow and team productivity.
- Managed project documentation and ensured timely submission of all necessary reports and data during the competition phase.
- Implemented troubleshooting techniques that resolved technical issues, leading to a 25% improvement in vehicle performance.

VOLUNTEERING

Volunteer Coordinator01/2023 - 01/2024

Clean Energy Corps

- Organized community workshops to educate about renewable energy solutions.
- Coordinated with local schools to promote environmental sustainability initiatives.

EDUCATION

Bachelor of Science in Mechanical Engineering

University of California, Berkeley

01/2021 - 01/2025Berkeley, CA
