

ZOEY WALKER

Engineering Student | Software Development | Problem Solving

+1-(234)-555-1234 • Email • linkedin.com • San Diego, California

Summary

Passionate engineering student with robust software development and problem-solving abilities. Skilled in Python and SQL, bringing excellent communication and teamwork to every project. Aiming to contribute innovative engineering solutions and gain expertise in technology operations.

Skills

Python • Java • C++ • Git • SQL • AWS

Experience

CodeCrafters Collective

Remote

Lead Developer

01/2025 - Present

- Collaborated with a team of 5 to develop a new mobile application that enhanced user experience by 40%, resulting in a 30% increase in downloads within the first three months.
- Led bi-weekly code review sessions, providing constructive feedback that increased overall team code efficiency by 15%.
- Engaged in documentation processes for software development projects, which improved project understanding and execution among team members.
- Implemented a creative problem-solving approach to design challenges during a hackathon event, boosting our team's completion rate by 50%.
- Developed hands-on software testing procedures that enhanced system durability and reduced bug occurrence by 20%.

InnoTech Studios

Remote

Junior Software Architect

06/2025 - 12/2025

- Participated in designing a modular architecture for an internal software solution, resulting in a 25% decrease in post-deployment integration costs.
- Contributed to a collaborative environment by engaging in team brainstorming sessions, advocating innovative solutions that led to improved project outcomes.
- Utilized Python and SQL for data analysis tasks, providing insights that directly supported strategic decision making.
- Synthesized detailed technical reports that communicated complex information effectively to non-technical stakeholders, enhancing project clarity across departments.

Volunteering

Computers 2 Kids

Tech Support Volunteer

04/2025 - 08/2025

Provided technical support to children and families in need, assisting in computer setup and maintenance.

- Facilitated workshops for basic computer skills, improving digital literacy for over 100 participants.
- Managed logistics for donation events, successfully coordinating the distribution of 50+ refurbished computers to community members.
- Engaged closely with a diverse group of participants, fostering an inclusive learning environment.

Education

University of California, San Diego

San Diego, CA

Bachelor's Degree in Computer Science

01/2022 - 01/2025

Strengths

Creative Problem Solving

Addressed and solved complex design challenges during hackathons, enhancing project completion rates significantly.

Effective Communication

Synthesized technical reports to articulate complex concepts to stakeholders, improving cross-department alignment.

Adaptability

Thrived in diverse team environments and adjusted to dynamic project roles while leading in software development projects.

Interests

Software Development

Enjoy crafting efficient code solutions and staying updated with the latest programming techniques and technologies.

Environmental Sustainability

Driven by the goal to integrate sustainable practices into tech solutions for a greener future.

Robotics

Intrigued by the development of autonomous systems and their real-world applications and benefits.
